

Print Procurement overview

A one-stop shop for print procurement requirements, helping organisations of any sector to streamline their printing operations and delivering cost savings.

With our tailored supplier network we can offer excellent product coverage.

By working with our specialists, we'll ensure we obtain the right product at the right price for you.

Print Procurement - How it works

Alongside our transactional printing we can support any print requirements. Our dedicated print experts will become an extension of your business with a technology enabled, outsourced procurement solution for all your printed and promotional needs, ensuring brand compliance and deliveries to suit your deadlines.

Benefits

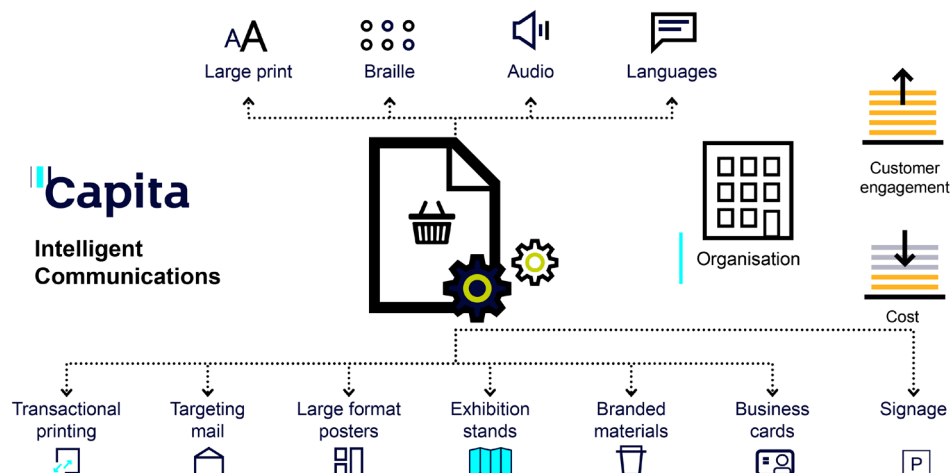

- Trusted partner in print management
- Dedicated account management team
- Robust supply chain management
- Control and secure digital assets and brand
- Audited and approved supplier partners
- Improved pricing
- Secure procurement portal
- Established environmental accreditation

By using us to take care of your print and fulfilment requirements you can concentrate on your core business.

Our supplier network has been refined over the years and all our suppliers are rigorously audited. Our dedicated account management team has a wealth of print knowledge and experience. We thrive on innovation and are always looking at new ways of production in order to improve our offering. We can deliver multichannel campaigns to your schedule whilst maintaining brand integrity and cost savings.

Through our knowledgeable team and secure procurement portal, ordering is easy. For more complex campaigns please speak to our team for their help and advice. For other items you can use our portal, which can be configured to the needs of different businesses and supports:

- Swift turnaround of quotes
- Transparent order tracking
- Detailed expenditure reporting
- Variable expenditure limits for different user or departmental profiles
- Repeat order functionality
- Multi-product orders
