Key items by division:

- **Public Service** – revenue broadly stable with prior year. Improved margin through cost savings, despite a £15 million profit impact in Smart DCC driven by non-repeat of project work concluded in 2023 and the 2023/2024 price control determination by Ofgem. Cash flow reflects delayed mobilisation on two contracts and a more sustainable approach to working capital management
- **Contact Centre** – reflects prior year contract losses and lower volumes in the telecommunications vertical, partially offset by progress on cost savings. 2023 includes the one-off benefit from the Virgin Media O2 contract transition including deferred income release and a one-off cash flow benefit from payment phasing
- **Pension Solutions** – making progress with new logo clients, efficiencies and improved operational leverage
- **Regulated Services** – primarily reflects the closed book Life & Pensions business, which we have made good progress exiting from, with only one customer left to agree an exit. 2023 operating profit included a £24m one-off from a commercial settlement and operating cash flow included a one-off receipt on contract termination
- **plc** – includes reduction in non-recourse trade receivables financing arrangements at end of 2024

- Reduction in depreciation reflects continued progress on our property estate exits
- Net reduction in deferred income / CFA as expected
- Increase in other working capital driven by payment phasing on the Virgin Media O2 contract which did not reoccur in 2024 and a more sustainable approach to working capital management

Revenue bridge by driver

Order book¹ bridge

Relevant to approximately 80% of revenue base

Two European telecommunications contract extensions in Contact Centre were framework contracts, which are excluded from the order book. This resulted in a de-recognition from the order book of £388m

Additions in 2024 include expanded scope on Royal Navy Training contract within Public Service and extension of Royal Mail Statutory Pension Scheme in Pension Solutions

Terminations primarily represent a contract exit within our closed book Life & Pensions business in Regulated Services

1. Order book represents the consideration which the Group will be entitled to receive from customers when the Group satisfies the remaining performance obligations in the contracts. Excludes non-contracted volumetric revenue and scope changes, contract extensions (unless pre-priced), revenue from frameworks and transactional businesses

BETTER Company

Capita Employee Network Groups (ENGs)

As part of our DEI strategy we have seven ENG's with 9,000 active members, each with an Executive Team sponsor:

Family, Multi-faith, Rainbow Alliance, Embrace (which includes the BEN chapter), **Gender, CAN** (ability network) and **Cancer**

Aims include:

1. Improving data declaration rates on Workday
2. Improving their reach and participation globally (currently very UK centric)
3. Working with People function to review processes, policy etc.

Each ENG also has a 2025 plan including celebrating large scale global events (Pride, International Women's Day, Black History Month etc.)

We helped improve their platform so they now take part in:

Monthly forums with the Chief People Officer, one ENG attends People Leadership Team meetings per month; meet with Adolfo on a schedule basis

- Bi-annual forums with the independent non-executive director for employee engagement on the Board

81% of colleagues were positive about being able to be themselves at work
